Customers

Peine, November 2009

New price-list - Increase of size-extras as of production 01.02.2010

Dear Sir or Madam,

Looking back on 2009 we all have to admit that we passed a very difficult year. As well the decrease of demand as the collapse of prices has given a deep negative impact to steel-industry. Prices achieved on the markets today are still unsatisfactory. Cost-cuttings which have in the meantime been effected have not been sufficient to cover the losses caused by price-collapse. Consequently it is absolutely essential to implement price-increases in the markets.

With our new pricelist dated 01.02.2010, which will be published within short, we will therefore increase our size-extras by

€/t 30,00

for all sizes. The new prices will be applied for all rollings as of Feb. 1st 2010, regardless of the delivery-schedule confirmed in our order-confirmation.

In the light of the tight cost-return-situation we kindly ask for your understanding and assistance in this measure and we do look forward for further cooperation with you.

Sincerely yours

Peiner Träger GmbH
